

LUNU STOOL

Designed in Paris by Jackson Mahr, Lunu is manufactured in rotomolded polyethylene, a material suitable for indoor or outdoor use. Without a single sharp corner or flat surface, Lunu's soft, curvy profile is fun, cool, durable and a focus for interiors.

Lunu is available in four standard colours. Customised colours are available on volume orders (based on RAL colour library).

Red 3028

Orange 2003

Magenta 4010
